

Dear Sirs:

I believe you should NOT lift restrictions on media cross-ownership-  
-if anything, you should strengthen the restrictions. I strongly  
believe that allowing fewer companies to own more types of media  
would limit diversity of opinion. I believe we need to protect  
ourselves from the probability that such consolidated ownership  
would threaten the free and independent presentation of information  
that is a basic part of our history and vital to a strong, well-  
informed population.
